TIKRAS ŽAIDIMAS, UAB (REAL GAME)

VILNIUS, OCTOBER 17, 2017

Dear Aurimas Maldūnas and Real Game team,

We at Business Sweden would like to express appreciation for the real estate market research and your advise which helped us to successfully deliver a turnkey establishment of operations in Lithuania for one of our clients - a Swedish industrial group.

Your dedicated team ensured that the Lithuanian real estate market for manufacturing facilities is well understood and the most relevant options for premises are short-listed. We also highly appreciate the practical support with reaching out to the owners and organizing the site visits.

As a result of cooperation, our client has signed a rental agreement for premises that match the key requirements and in confidence that the price and other terms match the market conditions.

Please feel free to use Business Sweden as a reference to your future clients.

Best regards,
